# Our Service

We Discuss, Build, maintain and break leaving no trace adding no extra stress to any event organiser

## (1) Discuss

We will collaborate with the event organizer to comprehend the necessities and preferences for the event. We will review the tents, interiors and layout of the festival with the organizer to come up with the most cost-effective package we can offer. Once we have agreed on the package, we will establish a date for setup and breakdown and draft a contract to make sure everything is clear.

## (2) Build

On the arranged date, we will arrive at the designated location and promptly begin setting up and building all the tents to the specifications outlined in the contract. We will also decorate the tents according to the agreement, ensuring they look their best and creating a cohesive aesthetic. We will take the necessary time to ensure that the tents are properly secured and stable, and we will be available to answer any questions or address any concerns you may have throughout the setup process. We will also provide a walk-through inspection with you to make sure all the details match the agreement and you are satisfied with the final outcome.

## (3) Maintain

For an additional fee, we can provide someone to monitor the tents throughout the weekend, ensuring that only authorized guests are permitted in the area. Additionally, if the event lasts more than one day, we can also ensure that the tents remain upright by having staff continuously monitor and adjust the guide ropes during the event.

## (4) Break

On the agreed date, we will thoroughly clean and pack away all of our equipment, tents, and any other materials we use during the event. We will take the necessary steps to ensure that the area is left in the same condition as when we arrived, and we will make sure that all of our rubbish and waste is properly disposed of. We understand the importance of leaving the area as we found it and we will take all necessary measures to ensure that this happens. We will also be sure to conduct a final walk-through of the area to ensure that no items have been forgotten.
